SAYFAGUARD™

WALKWAY

SAYFAGUARD™ WALKWAY

The SayfaGuard™ Walkway is used to provide a safe, simple, and easy means of moving along a roof or platform. The SayfaGuard™ Walkway's design uses specialised GripAssist mesh to increase slip resistance, and a specialised flange to counter the angle of any pitched area to provide a flat surface for users to walk across. Additionally, depending on the proximity of the walkway to an edge, SayfaGuard™ Rail can be added to the walkway to provide collective fall protection.

The SayfaGuard™ Walkway is typically supplied in modular pre-assembled components, for easy and efficient installation.

STANDARDS

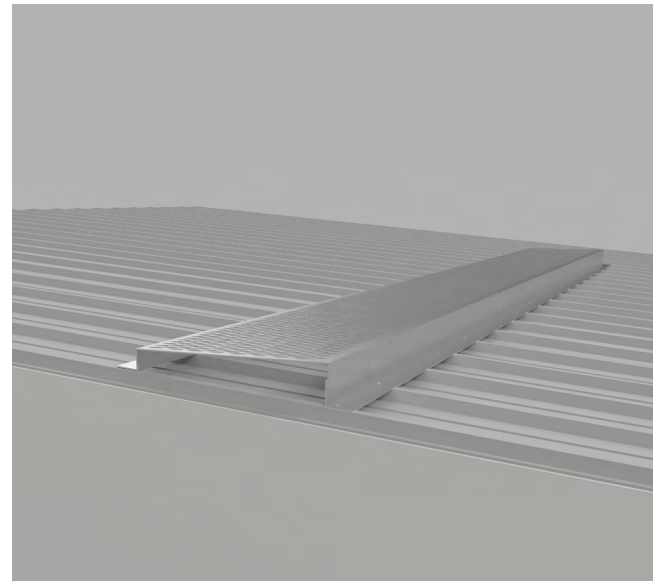

Approved for use to standard: BS 516:2006 CE Class 2. Which refers to pre-fab installation for roof access including walkways.

MATERIALS

SayfaGuard™ Walkway is formed entirely by 5081 grade aluminium with the main walkway base using GripAssist mesh.

SAFETY

The SayfaGuard™ Walkway can be fitted with SayfaGuard™ Rail to provide collective fall protection for users.

WARRANTY & MAINTENANCE

10 Year warranty as standard. 20 Year Sayfa+ Warranty, partner inspected and certified at 12 month intervals.

APPLICATION

The SayfaGuard™ Walkway can be installed on to PMS, Concrete, and Steel with a maximum pitch of 15°.

SECURITY

For added security a gate can be fitted with the guardrail to restrict any unauthorised access along the walkway.

TESTING REQUIREMENTS

Recertification of this system is required to be performed by a LOLER competent engineer, we would recommend using a LEAA or WAHSA member company. Depending on environmental factors the recommended intervals for testing and inspection are as follows:

EN ISO 12944-2 C1 – C3 Environments : Intervals of 12 months.

EN ISO 12944-2 C4 – C5 Environments : Intervals of 6 months*.

*For these environments please contact Sayfa group for product finishing options
