SAYFAGUARD™ RAIL

The SayfaGuard™ guard rail is a collective height safety system. This is a free-standing counter balance or fixed for areas requiring low frequency maintenance access.

The aluminium material and stainless steel fixings provide a 30 year service life and the system can be assembled with as little as two allen keys.

The SayfaGuard™ Rail is suitable for all flat roofs but ideal for multi-level residential developments and any pedestal type, paving or green roof systems.

Wind loading calculations are available.
